

OpenOffice.org Migration Story

Questions	Answers
Date Today:	November 19, 2004
Company / Organization Name:	n/a
Type of Business:	n/a
Address / Based in (Town/City):	n/a
No. of Employees:	n/a
Year Established:	n/a
Your Web Site:	http://bcole9894.freesevers.com
Contact Name:	Bobbie Colegrove
Contact Email Address:	
Your Operating System(s):	Windows XP
Version of OOo you migrated to:	1.0.0 (I now have 1.1.3)
Previous Office Suite (if any):	MS Word 97
Where did you hear about OpenOffice.org?	ZDNet forums
Reason for Migrating to OpenOffice.org:	I did not like the way MS Word handled pictures inside of documents. They always jumped out of place when I added text. There was no way to anchor them so that they wouldn't move. I found that rather annoying.
How easy did you (or your users) find it to migrate?	I found it to be rather easy. It did take a little looking around to familiarize myself with the menus and I read some tutorials. All else was self-explanatory.
Do you use any other Office Suite/Application and why?	Occasionally I have to use MS Word to view documents that contain tables with text and documents that switch between portrait and landscape modes.
Do you have any "wishes" for OpenOffice.org?	Better translation of tables and portrait and landscape modes between MS Word documents and OOo documents.
What features in OpenOffice.org do you like?	Export as PDF, database (address book), spell check, thesaurus, draw, the entire suite!
What do you dislike about OOo?	
Anything else you'd like to say...	

This document is in the public domain. Feel free to use, distribute and/or modify it..

By answering these questions and submitting this form you are giving your permission for this information to be used by 8daysaweek and/or OpenOffice.org on web pages and for marketing purposes.

This will help to promote OpenOffice.org to more users and thereby you are contributing to the success of the project, thank you.
